

Will Olson, BBA
Analyst

Mr. Olson joined the firm after working in a variety of positions in database administration and other areas for an integrated supplier to the Fortune 100.

His current work with Hollis Associates involves research on buyers and private equity groups, preparation of pro forma forecasts and financial statements, assisting with preparation of client profiles and market research.

Will's work at CorMine, LLC involved supervising a team of individuals who worked with customers and included work on contracts with major IT firms for the company's clients, including IBM, Hitachi, and Lexmark. He was also responsible for developing processes and procedures for and managing major database for the company's product lines and cataloguing systems for capital equipment and intellectual property.

His academic background includes a Bachelor of Business Administration degree with a concentration in finance from James Madison University in Harrisonburg, VA
